

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Authorized to
own and operate
water-works.

SECTION 1. *Be it enacted by the General Assembly of the State of Tennessee*, That taxing districts organized under the act aforesaid be, and they are hereby, authorized to construct, own, maintain, and operate a system of water-works for the purpose and sufficient to supply the district and its inhabitants with a bountiful supply of the best and most wholesome water practicable in the judgment of the legislative council of said district, with power to enlarge and extend the same from time to time, as the necessities of said district or its inhabitants may require.

Bonds.

SEC. 2. *Be it further enacted*, That in order to raise the means necessary to construct such water-works, said taxing districts are authorized and empowered

to issue coupon bonds to the amount of not more than one million two hundred thousand dollars, bearing interest, payable semi-annually, and maturing not less than ten, nor more than forty, years after the date thereof, the form of which bond shall be substantially as follows, viz.:

STATE OF TENNESSEE.

Form of bond.

TAXING DISTRICT OF _____ COUNTY.

No. ____ WATER BOND. \$1,000.

The taxing district of _____ County, a municipal corporation organized and existing under the laws of the State of Tennessee, acknowledges itself indebted to _____, or bearer, in the sum of one thousand dollars, which sum it promises, as hereinafter stated, to pay to bearer _____ years after the date hereof, at _____, together with interest at the rate of _____ per cent. per annum, payable semi-annually at the place aforesaid, on presentation and surrender of the interest coupons hereto attached.

This bond is one of a series numbered from one to _____ consecutively, each for the sum of \$1,000, and amounting, in the aggregate, to the sum of _____, issued under, and subject to, the provisions of an act of the Legislature of the State of Tennessee, Chapter _____ of the Acts of 1887, which Act is here referred to and made part and parcel of this bond. Payment of the principal and interest hereof is secured by a trust deed on the water-works, including land, casements, buildings, pumping machinery, conduits, mains, reservoirs, stand-pipes, water-towers, filterers, pipes, etc.; built and laid, or to be built and laid, under the provisions of said Act, on the revenue to be derived from said water-works, and on the franchise to maintain and operate the same in the event of a foreclosure sale under said trust deed.

In respect of said principal sum of one thousand dollars, and the coupons hereto attached, this bond does not create or carry any general liability of or against said taxing district, the holder hereof stipulating to look alone to said trust deed security for the payment thereof.

All of said bonds shall be subject to call at the end of ten years after the date thereof, but said bonds must be called in the inverse order of their numbers

that is to say, the bond of highest number shall be first called, and then consecutively downwards, according to number. Publication of the fact of such call shall be made for ten days in one Memphis, and and one New York daily paper, and thereupon the interest on the bond or bonds so-called; shall cease.

May execute a trust deed.

SEC. 3. *Be it further enacted*, That in order to secure the payment of said bonds and interest, said district may execute a trust deed on the entire system of water-works, land, casements, buildings, pumping machinery, mains, conduits, reservoirs, stand-pipes, water-towers, filterers, pipes, etc., and the franchise to operate and maintain the same by the purchasers, in the event of foreclosure sale under such trust deed. Said trust deed to embrace all the entire system of works as aforesaid, the system and all parts thereof, and additions thereto, to be treated as a unit, and to fall under said trust deed, whether constructed or not at the date of its execution, and to embrace also all revenue to be derived from supplying the water to consumers. And in consideration of the water to be supplied by said works for public use and service, said taxing district shall contribute such proportion of the gross income to be derived from said works as the legislative council may deem equitable and just, the amount thereof to be fixed annually by said council.

Water-works property alone liable.

SEC. 4. *Be it further enacted*, That in respect of the principal and coupons, the bonds to be issued as aforesaid shall not create or carry any general liability against said district, but the holders of said bonds shall look solely to the security of said trust deed on said water-works system for the payment thereof. No tax shall ever be levied for the payment of said bonds and coupons, nor shall any property of the district, other than said water-works system, be subjected to the payment thereof.

Not to be negotiated for less than par.

SEC. 5. *Be it further enacted*, That said bonds shall not be negotiated at less than par, and any official of the district violating this provision shall be guilty of a felony, and upon conviction thereof shall be imprisoned for not more than two years. But said district may allow a brokerage commission for placing or negotiating said bonds of not more than one-half of one per cent.

Tax to pay interest.

SEC. 6. *Be it further enacted*, That in order to pay the interest on said water bonds during the construc-

tion of said works, a tax of thirty cents on the one hundred dollars of taxable property in said district, real, personal, and mixed, including stocks, merchants' capital, and every species of taxable property, is hereby levied for the years 1887 and 1888, to be collected in the same manner and at the same time that other taxes levied for said district are collected, all liens and remedies provided for the collection of other district taxes to be in force for the collection of the tax hereby levied. But none of this tax is to be collected until a contract is made for the construction or purchase of water-works as provided in this Act. If the whole amount of the tax here levied is not required to pay interest, as aforesaid, on said water bonds, then the surplus thereof may be used by the Fire and Police Commissioners for extending, enlarging, or improving the sewer system of said district, or for paving the streets of said district.

SEC. 7. *Be it further enacted*, That private property and the right of laying pipes and conductors through the same may be condemned, under the right of eminent domain, in accordance with the provisions of the Code (Vertrees and Milliken's edition, Sections 1549 to 1574), in order to obtain sites for the buildings, reservoirs, mains, conduits, water-towers, stand-pipes, filterers, etc., or in order to obtain any lands or easements necessary for the construction or operation of said system of water-works, as the same may be determined upon by said district; such right of condemnation being hereby conferred, whether the land lies within or without the limits of said district. Right to condemn private property.

SEC. 8. *Be it further enacted*, That the source of water supply and the plan of water-works to be adopted shall be determined by the legislative council of said district, and shall be such as will, in the judgment of said council afford, at the least practicable expense, a bountiful supply of the best water obtainable by means which are deemed permanent as an engineering plan that will be capable of enlargement; and all powers necessary to accomplish this general result are hereby conferred on said district. Source of water supply, plan, etc.

SEC. 9. *Be it further enacted*, That the proceeds of the bonds hereinbefore authorized to be issued shall, as fast as realized, be deposited in a bank, to be designated by said legislative council; the said bank shall be first required to give bond with satisfactory sureties, in a penalty to be fixed by said council, and Proceeds of bonds, how kept and used.

But orders or checks drawn against said fund by the Fire and Police Commissioners shall be sufficient vouchers to said bank, and the bank shall not be liable for the misappropriation or misuse of said fund, or any part thereof, paid out by it on such orders or checks. A willful violation of the provisions of this section shall be a felony, and upon conviction shall subject the offender to imprisonment in the penitentiary for not more than two years; and shall also render such offender personally liable for the amount so misappropriated.

Employers.

SEC. 10. *Be it further enacted*, That for the purpose of operating and maintaining said water-works, said districts are authorized to employ such officers, engineers, clerks, agent, and employes as it may deem necessary, whose compensation shall be fixed by the legislative council, and paid out of the revenues to be derived from the works; and said works, both before and after foreclosure of said trust deed (should such foreclosure occur) shall be operated under the general supervising government and regulating power of said district.

In the event of
foreclosure.

from the source adopted by said district, said supply to be kept equal in volume and quality, so far as necessary, to the capacity of the system adopted and constructed by the district; and in such event the annual amount to be charged said district—for water supplied for public service—shall not exceed ten per cent. of the aggregate gross income to be derived from said works.

SEC. 12. *Be it further enacted*, That the police power ^{Police power.} of said district be, and the same is hereby, extended over the entire territory upon which said works or any part thereof may be located, as if the same was within the limits of said district.

WHEREAS, The attention of this General Assembly is called by the Governor's message to a resolution of the General Assembly of the Commonwealth of Vir-

ginia, at its last session, looking to the establishment of the boundary line between the State of Virginia and the State of Tennessee; and,

WHEREAS, Said boundary line has been definitely fixed and established by law as far back as 1803, which settlement of the question has been recognized and acquiesced in by the authorities of both States as valid and binding as legislative enactments can make it, for near three-fourths of a century, and has been reaffirmed as the true and proper boundary line between the said States of Virginia and Tennessee repeatedly by acts of their General Assemblies, respectively, and is so recognized and reaffirmed on the part of Tennessee in her Code as late as the year 1858, and by Virginia in her Code in 1860; and,

WHEREAS, The settlement of this question with all the difficulties which led to and attended the same, are matters of official record, open to be seen and read by all men; therefore,

Be it resolved by the General Assembly of the State of Tennessee, That any legislation looking to the re-opening of this question is impolitic, and not to be advised; for the Acts of 1802-3, and subsequent acts passed, ratified and reaffirmed by both States have all the force and effect that an act passed now could possibly have; it is, therefore, the sense of the General Assembly of the State of Tennessee that further legislation upon this settled question is unnecessary, and the subject be respectfully dismissed.
